Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* on the wrapper all these years just to protect the coming generations. Do not be deceived. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

SATURDAY, AUGUST 19, 1922

The highway department of the state of Minnesota is making an effort to have shade trees set out on every highway along each side, planning that in years to come every road will be shaded by beautiful trees. Not only is it a good idea from a scenic point of view but it is also wise as a strictly road proposition as a dirt or gravel highway fairly well shaded wears better and is not so much inclined to washboard in hot and dry weather as is a road open to the glare of the sun. The only change we would propose is that for Vermont it would seem wiser to set out apple trees, furnishing blossoms in May, shade during the hot weather, and an abundant crop of apples in the fall, while the ground occupied cannot be utilized for anything else. It is said that in Japan shade trees around houses are nearly always fruit trees which thus do a double duty.

In spite of the slowing down of business all over the country savings banks in Vermont have increased their deposits during the past six months. This does not necessarily show that earnings have kept up but is a proof that people who once learn the habit of thrift continue to save money even though their earnings are decreased. Every person who has acquired a competence through habits of savings declares that it is not so much the size of the income but the ability to save that makes the difference between a thrifty person and the spendthrift. Practically every able-bodied person earns enough during his lifetime to become independent but only one in 100 will save enough to actually achieve competence during the days of his working life. Almost always, too, the one who does become prosperous, is not by any means the one who has had the largest income.

A French medical authority calls attention to what he regards as a danger to the women of that country in the tendency to overdo their newly acquired passion for sports. Boxing and football are wholly unsuited for feminine following and should be avoided. It is very desirable, however, that they should take a certain amount of exercise daily when their objects should be to make for suppleness and grace rather than strength. Elasticity of muscles is essential to maternity but over-development of the muscles is more likely to be detrimental than anything else. Dancing in moderation is highly recommended by the doctor.

Talking about wasted water power, wasted timber and wasted fuel, there is no waste on the face of this earth comparable, in the extent of the injury and loss inflicted upon mankind, to the wasted time of millions of people in the United States.

The inventor of a bullet-proof vest tested it out by having an employee put the vest on while he shot at him five times. It is a most inspiring example of having the interest of the employer close to one's heart.

A Philadelphia efficiency expert says at the present rate of waste our coal supply will last 100 years. With rigid economy the time can be extended to 110 years. The first 100 years are always the worst.

A grand opera star who married a chauffeur says she put him out of the house. He says he left of his own accord and, really, who ought to know better than a chauffeur when it comes to a blow.

It's toasted. This one extra process gives a delightful quality that can not be duplicated

The New Series Paige 6-66 chassis, carrying improvements and refinements that mark still another mile post in automotive design and craftsmanship, is now ready.

The New Paige is the latest product of an organization that has been specializing for years in quality Sixes, with every year registering a distinct engineering and manufacturing advance. It is a great car made greater.

The New Paige clutch is, we believe, the greatest single advance ever made in clutch development, and permits quiet gear manipulation in conditions you have never considered possible. And the New Paige transmission completes the pure delight of speed changing by making it possible by the pressure of a finger.

Complete snubber equipment, fore and aft, is another added perfection. The New Series Paige simply floats its passengers over the roughest roads a motorists may find.

Two additional cross members further stiffen the titanic strength of the frame. Axles are Timken—the best that money can buy. And in this perfected chassis pulsates the great 70-horsepower motor. The 6-66 chassis is a proven unit of dependability. The Daytona Model holds every world's stock chassis speedway record from five to 100 miles.

The Master of the Highway is ready for another year of supreme service. Come in and see this distinguished and perfected series of motor cars.

STATE OF VERMONT TEACHER TRAINING CLASSES

Season of 1922-23.

Courses for training elementary and rural teachers will be conducted by the State as follows:

TWO YEAR COURSES

University of Vermont, Burlington Normal School Building, Caston Lyndon Institute, Lyndon Center Dormitories, special facilities, splendid advantages at each of these schools.

ONE YEAR COURSES

Classes offering standard course for first year only are to be maintained at Bakerfield, Barre, Barton, Bethel, Bennington, Chester, Danville, Johnson, Middlebury, Montpelier, (Seminary), Morrisville, Newbury, Randolph, Springfield Swanton and Windor.

Graduates of approved high schools and academies who are interested in teaching are invited to join one of the one or two-year courses.

Tuition free for prospective Vermont teachers. State's Teacher's certificate granted to graduates.

Write to Commissioner of Education, Montpelier, for information.

Consult local superintendent or CLARENCE H. DEMPSEY, Commissioner.

AGAINST HIM.

A prominent Boston lawyer has a 10-year old son who seems to be treading quite closely in his father's footsteps. One day the boy told a falsehood about some boyish scrape, and his father took him aside to lecture him on the wickedness of not telling the truth. He told him the story of George Washington and the cherry tree.

"Now, Roger," he concluded, "don't you think that George was brave as well as truthful to own up to doing the deed? Give me your opinion, my son."

"Well," said Roger, seriously, "I think that the only thing he could do was to plead guilty. You see, pa, the evidence was all against him. He owned the hatchet."

A Remedy.
"See here, Bridget, the dishes you've put on the table of late have been positively dirty. Something's got to be done about it."

"There for ye, ma'am. If ye only had dark-colored ones, they wouldn't show the dirt at all."

Dr. Holmes Once Said
"It is better to be young at 65 than old at 35." A good way to be young when old is to enjoy the freedom of a guaranteed life income. Investigate our annuities. National Life Ins. Co. of Vt. (Mutual), Earle S. Kinsley, General Agent, Mead Building, Rutland, Vt.—Advertisement.

"Lost the Account."
The Council of North Sydney, Australia, has had dealings with a man with strange ideas of bookkeeping. Some years ago he did some work for the Council, but didn't claim payment for part of it, because, he said, he had "lost the account." The other day the bill was sent in for the balance and was duly paid. The "account" had been kept on a bit of tin; which had got mislaid.

GOOD NEWS
Bird—How are the children?
Frog—Pretty well, thank you—they've just cut their hind legs.

Hen Eats Her Chicks.
A British Columbia woman says that one of her hens ate one of its chicks last month. She thought that there must have been something the matter with the chick, but she discovered her mistake when the hen commenced eating another chick which was healthy in every respect.

Followed Father's Example.
The brides and bridegrooms at a double wedding at Spalding, Eng., were two brothers and two sisters. The brides followed the example of their father, for he and his brother married two sisters.

Can Fish Hear?
Fish have no ears, but there is no doubt that they can detect sounds, as most anglers know to their cost. It is probable that they feel the vibrations which sounds set up in the water, by means of a sensitive nerve that runs down each side of their bodies.

Lucky Man Always a Worker.
When a miner lands a nugget, folks usually say that he is lucky. But it isn't luck. The miner went for nuggets where they were—and dug, and dug, and dug. When you land a prize it is because of work—and brains. The possessor of good luck is a worker.

Josh Billings as a Prophet On Insurance Companies

You may recall what Josh Billings had to say about cats:
"The hardest thing in every day life is to pick out a good cat, not because cats are so skazy, az bekause they are so plenty."
If this Yankee philosopher of the 70's had been talking about the Insurance situation today he couldn't have stated the case any better.
There are several hundred Insurance Companies doing business today—GOOD, BAD and INDIFFERENT
